President/CEO:

Business Identifier:

Advanced microelectronics design

Synopsis: Report Elements

SBIR Status	Awards	129	Key bios available on request
1	Patents	5	
Basics Data		VC Funded	False
Founded	1988	Public/Private	False
1st SBIR Year	1987	Stock info	
Employees		Revenue	4

General Profile:

Tanner Research, Inc. is involved in various facets of advanced microelectronics design. Through the firm's Tanner EDA division, the company has provided innovative, high performance electronic design automation software solutions to over 12,000 engineers in 35 countries. Tanner EDA products are used for the design, layout and verification of analog and mixed-signal ICs and MEMS. Its' solutions help speed designs from concept to silicon and are used by thousands of companies to develop devices cost-effectively for industry segments such as medical, consumer electronics, automotive, wireless, imaging, power management, RF and solar / photovoltaic. Tanner Labs, the advanced research and development arm of Tanner Research is focused on advanced microelectronics research such as MEMS, speech recognition, active pixel imagers, data acquisition systems and optical communication for commercial and government customers.

Company Awards		Awards received from these agencies:		
Phase 1 Awards	129	Phase 1 Amount	11349971	Total Amount
Phase 2 Awards	46	Phase 2 Amount	33763413	45113384

Program	Source	Phase	Year	Project Title
---------	--------	-------	------	---------------

Patent Number	Date of Issuance (YYYY-MM-DD)	Patent Title
