General Profile:

Offering engineering services relating to pre-cast and/or pre-cast, pre-stressed components fabricated out of concrete or UHPC for the bridge, building, and marine industries. Precast Systems Engineering (PSE) specializes in component design and detailing. Precast Systems Engineering is partnered with Precast Systems Inc. and Cor-Tuf UHPC to address use of advanced material technology and experience to fulfill a commitment to execution in a wide array of projects. The effort is take UHPC and Precasting to another level to answer the challenges of the construction future by reinventing steel and reimagining concrete.
